7. Business Recommendations

• Prioritize high-performing Technology products while maintaining appropriate inventory levels.

• Investigate pricing, discounting, and product-level profitability within Furniture because sales are high relative to profit.

• Study the product and customer mix contributing to strong West-region performance and assess opportunities in lower-performing regions.

• Review the causes behind the 2015 sales decline and the factors associated with growth from 2016 to 2017.

• Use the Region, Category, and Segment filters to monitor performance and identify areas requiring attention.

8. Dashboard Scope

The Power BI dashboard provides KPI cards for sales, profit, orders, quantity, and profit margin, with visuals for annual sales trends, category performance, regional performance, top 10 products, and profit by category. Interactive filters are provided for Region, Category, and Segment.
